

FY18 NDAA: House Floor Action Summary

To see all 440 amendments to the FY18 NDAA which were submitted for debate on the House Floor, click [here](#).

Congressman Lamborn's amendment cutting red tape on missile defense was 1 of only 5 amendments to successfully pass the whole House by recorded vote (vote [tally](#) was 235 - 189). By comparison, 17 amendments failed by recorded vote.

Of all 440 amendments submitted, 210 were made in order (e.g., allowed to be debated). For a complete summary of the outcomes of these amendments, the HASC Floor tracker is [here](#), or [here](#) for the Republican Cloakroom tracker.

The overwhelming majority of Floor amendments passed in En Bloc packages. Of the 38 amendments which were debated as standalone amendments, 10 passed (5 by voice vote, 5 by recorded vote), while 18 failed (2 by voice vote, 16 by recorded vote).

Congressman Lamborn had 3 successful amendments:

- Iran Terror-Free Skies ([text](#)) - Report POTUS/DoD/DoS/DNI report on Government of Iran use of commercial aircraft for illicit activities.
- Boost Phase Missile Defense ([text](#)) - Requires Initial Operational Capability of a boost phase ballistic missile defense capability by Dec. 31, 2020.
- Saving MDA from DoD red tape ([text](#)) - Normalizes the operational test and evaluation process for the ballistic missile defense system by conforming the condition for proceeding beyond low-rate initial production in line with all other major defense acquisition programs.

In addition, Congressman Lamborn cosponsored 2 successful amendments:

- An amendment offered by Congressman Walz (D-MN) requiring a DIA report on the military training center and logistical capabilities of the Chinese and Russian armies ([text](#)).
- An amendment offered by Congressman Franks (R-AZ) amendment on Israeli Missile Defense ([text](#)).
